445 12th Street, SW
Washington, DC 20554

June 5, 2010

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I am writing to express my support for Comcast's proposed partnership with NBC Universal. As 2nd Vice President of the League of United Latin American Citizens, LULAC Council 402, in Houston, Texas, I have witnessed Comcast's extraordinary commitment to civil rights, equality and diversity. I believe Comcast will uphold the promises it makes about this new partnership, because it keeps its promises to us.

LULAC is this nation's largest civil rights organization. For over eighty years we have worked to improve opportunities for Hispanic Americans. LULAC Council 402 "The Education Council" raises thousands of dollars for college scholarships each year. Comcast shares our values of supporting educational programs in minority communities. In fact, Comcast is a key annual sponsor for our major scholarship fundraiser. Comcast also ensures that all children have access to today's technological advantages by providing complimentary broadband access to public schools. By connecting young Hispanic Americans to broadband Comcast helps to make them digital literate, which will not only expand their chances for success in school but also prepare them for an increasingly competitive job market that nearly always demands online skills.

Additionally, we are grateful for the hard work of June Lohman. June is Comcast's Manager of Government & Community Relations here in Houston. She is an active volunteer and member of LULAC Council 402. Her commitment to LULAC exemplifies Comcast's commitment to serving local organization in the communities where it does business.

I hope you will remember LULAC and Comcast's good work as you make your decision about this venture. I believe a stronger Comcast will mean even greater contributions to organizations like ours. Please facilitate approval of this partnership.

Sincerely,

Mary Almendarez

2nd Vice President, LULAC Council 402
